

HAUSKEN

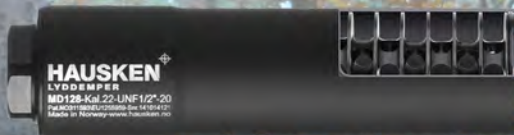

LYDDEMPER

Hausken sound moderators are manufactured in Norway in hard-anodised, high quality aluminium for durability. Each moderator has two main parts. The baffles are machined from a solid aluminium bolt, 35mm, 45mm, 55mm or 70mm in diameter. Each moderator is fitted with an 18x1mm thread but, using the unique Hausken barrel nut conversion system, the thread is adapted to suit your rifle.

MD35

- Diameter - 35mm • Total Length - 128mm • Weight - 145gr
- Decibel Reduction - 23dB
- Fitting - End of Barrel

MD45

- Diameter - 45mm • Total Length - 128mm • Weight - 180gr
- Decibel Reduction - 27dB
- Fitting - End of Barrel

MD35 & MD45 suitable for calibres - .17HMR or .22/222/223/22-25

SK156

- Diameter - 50mm • Total Length - 163mm • Weight - 345gr
- Decibel Reduction - 28dB
- Fitting - End of Barrel

JD184

- Diameter - 50mm • Total Length - 184mm • Weight - 270gr
- Decibel Reduction - 29-31dB
- Fitting - Over Barrel / Reflex

JD224

- Diameter - 50mm • Total Length - 224mm • Weight - 310gr
- Decibel Reduction - 31-37dB
- Fitting - Over Barrel / Reflex

WD60

- Diameter - 60mm • Total Length - 224mm • Weight - 540gr
- Decibel Reduction - 35-40dB
- Fitting - Over Barrel / Reflex

SK156, JD184, JD224 & WD60 suitable for calibres - .22/222/223/22-25, 6.5/243, 7mm/270/.30/.308, 8mmS, 338 or 375/9.3
