THE AGE OF MY PERAZZI

All Italian shotguns are stamped with the year of proofing by the Italian Proof House.

If you take your barrels and turn them upside down you will see a number of stampings on the underside of the monobloc. (see picture below)

This includes the serial number, Gardone Proof House mark, superior proof mark for smokeless powder and a 2 letter code in a box that denotes the year of proof.

 If this symbol is also listed it shows that the gun is steel proofed.

(A list of codes and year references are on the next page)
